Kootenai County Announces Recruiting Video Release

January 9, 2018 – Kootenai County is pleased to announce the release of a recruiting video for employment opportunities within County government. In our ongoing efforts to communicate the benefits of working for Kootenai County, as well as the many benefits of living in our area, the Board of County Commissioners funded the production of this professional advertising tool, produced by Laeng Productions. We invite you to view the video on our website (www.kcgov.us) under our [Human Resources link](#) and to share it throughout our community, as well as with anyone who might be interested in moving to our beautiful area.

The nearly three-minute video highlights our comprehensive benefits package, positive working environment, and amazing community. We are looking to fill multiple positions at any given time, and our hope is to attract applicants that want to become part of our quality public service agency.
