

Attention Snowmobilers:

One of our groomer machines is currently disabled on Road 278, which begins at the Bunco Trailhead. This is the southern route from the Bunco Trailhead to Lakeview. UTVs will not be able to go around the machine in this location! Snowmobiles *may* be able to get around the machine. **Consider alternate routes.** The disabled machine is east of the Bunco trailhead. The machine will likely be disabled through the holiday weekend.
